- Aptis Esol B1

Motivated Fresher .NET Developer with a strong eagerness to learn and grow in a professional working environment. I am passionate about software development and aspire to strengthen my technical skills while contributing to impactful projects. With a proactive attitude and a commitment to continuous improvement, I aim to become a valuable member of the development team.

### EXPERIENCE

- HQSOFT COMPANY LIMITED** MARCH 2025 - NOVEMBER 2025  
.NET Developer
  - Ajinomoto VNTT - eSales DMS Solution**  
**Description:** Enterprise DMS project built on HQSOFT's Xspire Business Platform with the eSales DMS Solution, helping Ajinomoto optimize distribution, improve sales efficiency, and monitor business operations effectively.  
**Technologies Used:** ABP Framework Asembli, .NET Core 9, C#, Entity Framework, Blazor, DevExpress, PostgreSQL  
**Tools:** ABP Suite, Cursor AI Agents  
**Contributions:**
    - Built master data screens (products, customers, KPI, etc.).
    - Joined meetings on solution design and UI/UX improvements.
    - Applied Cursor AI Agents for faster code generation.
    - Supported UAT Release Batch 1 and system stabilization.
    - Enhanced backend skills with ABP Framework and UI skills with Blazor + DevExpress.
  - Sabeco AMS**  
**Description:** Enterprise software project focused on distribution management and sales force automation, built for business process optimization.  
**Technologies Used:** ASP.NET MVC (Razor + Ext.NET), HQ eSkyFramework, C#, JavaScript, SQL Server  
**Contributions:**
    - Built several simple master data management screens using ASP.NET MVC and Ext.NET.
    - Received training on business processes related to DMS-SFA (Distribution Management System - Sales Force Automation).
    - Gained practical skills in working with SQL Server and PostgreSQL databases, including data manipulation and debugging.
